

Automatic Green Tape Dispensing Machine

Model: ATDM-500

Function :

Automatic laying adhesive tapy on the PVC sheet.

1. PVC sheets placed on the supplies area manually
2. Laying&Sticking the tapy on the PVC sheet automaticly.
3. Cutting the tapy and receiving the PVC sheet automaticly.

Features:

1. PLC automatic control program, large screen friendly human-machine interface, convenient adjustable, various parameters machine is simple operation, easy maintenance.
2. Roller feeding way to guarantee feed speed, high stability.
3. Gummed paper shear module adopts steel processing, high shear stability, long service life.
4. Materials have many magic eye detection platform, to ensure that each working procedure such as feeding, cutting tape, material-collecting accurate and stable.
5. Can be customized according to customer requirements to adapt to the different size layout.

Specifications:

Item	Details	Item	Details
Dimension	L 2000 × W 680 × H 1350 mm	Weight	300 kg
Power	AC220V, 50Hz, 0.65KW	Speed	about 500 sheet/hr
Applicable supplies	PVC sheets with after embedding wires		
Operating requirement: 1. Environmental requirement: operating ambient temperature 22°C, + 3°C, Dry and Dust-free 2. Power: AC 220V (single phase) , 50/60HZ 3. Barometric pressure: 6kg/cm ²			

Notes: above specification is subject to change without prior notice due to continuous improvement.
